
Atomic Molecular And Optical Physics Charged Particles

atomic, molecular, and optical sciences - atomic, molecular, and optical sciences 40% theory, 60% experiment (university), 34%/66% (university+labs) intense field and ultrafast x-ray science (50%u, 51%u+I) goal: discover, understand, and exploit fundamental phenomena associated with interactions of intense electromagnetic fields and matter on ultrashort time scales. **atomic, molecular, and optical sciences portfolio description** - atomic, molecular, and optical sciences portfolio description . this program supports basic experimental and theoretical research aimed at understanding the structural and dynamical properties of atomic and molecular systems. the research focuses on fundamental interactions of these systems with photons and electrons to characterize and control **2014 atomic, molecular, and optical sciences** - iii foreward this volume summarize the 34th annual research meeting of the atomic, molecular and optical sciences (amos) program sponsored by the u. s. department of energy (doe), office of basic energy sciences (bes), and comprises descriptions of the current research sponsored **advanced atomic, molecular and optical physics** - electron targets. molecular structure and dynamics explored in pump-probe experiments on femtosecond to attosecond time scales. theory, practical implementation of calculational methods, and experiment will be discussed and compared in case studies. advanced atomic molecular and optical physics **quantum mechanics atomic, molecular, and optical physics** - quantum mechanics_atomic, molecular, and optical physics atomic, molecular, and optical physics (amo) is the study of matter-matter and light-matter interactions; at the scale of one or a few atoms [1] and energy scales around several electron volts[2]:1356.[3] the three areas are closely interrelated. **journal of physics b: atomic, molecular and optical ...** - molecular dynamics simulations. for hot dense matter a quantum number dependent optical electron finite temperature ion sphere model is developed that fits well with line shift and line disappearance data from dense laser produced plasma experiments. finally, the physical transparency of the asp picture allows a critical discussion of current ... **atomic, molecular, optical, and chemical physics t** - [atomic, molecular, optical, and chemical physics] solid-state picosecond laser is combined with frequency stabilized diode laser radiation and microwave radiation to create an ultra-sensitive probe of molecular electric and magnetic dipole moments. finally, narrow line width solid state lasers and atomic vapor cells are **applications of optical cavities in modern atomic ...** - advances in atomic, molecular, and optical physics, vol. 49 applications of optical cavities in modern atomic, molecular, and optical physics jun ye1,* and theresa w. lynn2 1jila, national institute of standards and technology and university of colorado, boulder, colorado 80309-0440 **atomic spectroscopy - nist** - experimental techniques and the details of atomic theoretical methods are not covered in this article; these and a number of other subjects pertinent to atomic spectroscopy are treated in one or more of at least fifteen chapters in the volume atomic, molecular, and optical physics handbook, g.w.f. drake, ed. **atomic and molecular acceleration via one dimensional ...** - routinely used in low-temperature atomic physics. however, their application towards energy and momentum addition is contrary to their common use and has little experimental precedent (shneider, barker and gimelshein, molecular transport in pulsed optical lattices 2007). by building on the **atomic spectroscopy 2005 - instructorysicsa.umich** - atomic and molecular spectroscopy figure 1: spectroscopy schematic from ocean optics 1. introduction much of our knowledge about atomic structure is derived from the way atoms emit or absorb visible light. when dispersed with a prism or a grating, the light from atomic processes is seen to consist of **journal of physics b: atomic, molecular and optical ...** - journal of physics b: atomic, molecular and optical physics paper 3rodul]hghplvvlrqlq,, 19,dqgshuryvnlwhfroofrigdo txdqwxpgrwv to cite this article: maya isarov et al 2017 j. phys. b: at. mol. opt. phys. 50 214001
